Larry Bankhart Declares Blue Football Team Is "Nothing Wonderful."

THORPE'S STAR ELEVEN

By DANIEL.

Just what is the status of the Yale football team? As the Blue stands on the threshold of its most vital tests of the season—games that are important not only from the standpoint of scores but as measures of Tad Jones's success in his new endeavor and Yale's rise from
the slough of despond—followers of the
sport may be set adrift in a sea of
doubt by conflicting appraisals of the
Ell outfit. Certainly the showing against
Colgate did not tend to improve the
situation.

With regard to the Tale eleven all New Haven—like ancient Gaul—is di-vided into three parts, the conservatives, the radicals and the cold water brigade. All season long the conservatives have have been trying to muzzle the radicals, who have been shouting the Blue's prowess from the house tops. Down in their hearts most of the Yale conservatives really believe that Jones has at last put

We have in the last few days attempted to gather from expert sources possible confirmation of a personal possible confirmation of a personal opinion that Yale had not yet, by a long shot arrived. This search for knowledge developed the fact that in the eyes of most of those approached, the Ellis are not as formidable as general report would make them. The most interesting critique of the Blue team comes from Larry Bankhart each of the Col. from Larry Bankhart, coach of the Col-gate eleven, which held the Bulldog to a
